Notice to Attorneys

In some portions of the country, the Directory Publishers facilitate obtaining orders for publications of summons by searching all State City Directories for defendants and furnishing affidavits. We have a complete and up to date Library of City Directories, comprising the latest issues obtainable and shall be glad to confer with any attorneys who might desire to make use of our services in this connection.

Our files of old Milwaukee Directories are also complete, enabling us to trace the history of any person who has ever appeared therein. We aim to show the date of death of all who die between issues of our directories.
